

Rockers

- *Rockers subculture emerged in 1960 in England. Originally it was applied to the youth, who went on a motorcycle. The origins of the rocker, began to form as early as 1950, when the style of rock and roll began to gain momentum, thanks to the legendary performer Elvis Presley.*
- *Image subculture rockers are practical, in principle, it survives today. They wear leather jackets decorated with various patches, iron buttons*
